PROTECT YOUR STANDPIPE SYSTEMS FROM VANDALISM, DAMAGE AND DEBRIS

Standpipes are vertical water pipes installed in stairwells and parking garages serving to support firefighting hoses. Fire hoses are connected to these standpipes, allowing manual application of water to the fire. Protect these vital water access connections with Knox Standpipe Lock.

KNOX STANDPIPE LOCK BENEFITS

- ✓ Protects dry and wet standpipe outlets in stairwells from tampering
- ✓ Protects the discharge side of standpipes and wall hydrants
- ✓ Can be mounted onto fire hydrants
- ✓ New inclusion in the 2018 IFC (International Fire Code):

Chapter 905.11 - Locking Standpipe Outlet Caps.

"The fire code official is authorized to require locking caps on the outlets on dry standpipe where the responding fire department carries key wrenches for the removal that are compatible with locking FDC connection caps."
